Application for Capacity – Chile route

Effective during the Northern Winter scheduling season, commencing 27 October 2019, Qantas Airways Limited (Qantas) plans to operate one additional service per week during periods of peak demand between Australia and Chile using B747 aircraft.

For flexibility, the ability for another Australian carrier which is a wholly-owned subsidiary of Qantas, such as Jetstar Airways Pty Limited, to utilise capacity on the route is requested.

Allocation Sought

Qantas requests an allocation of 337 seats per week on the Chile route on the following basis:

- the allocation is requested for a period of five years from the date of the determination;
- the capacity will be fully utilised by 31 March 2020;
- the capacity may be utilised by Qantas or another Australian carrier which is a wholly-owned subsidiary of Qantas; and
- the capacity may be used by Qantas to provide joint services with any wholly-owned subsidiary and by any wholly-owned subsidiary of the Qantas Group to provide joint services with Qantas.

We would be pleased to provide any further information the Commission may require in support of this application.

Yours sincerely,

Megan Morris
Acting Head of International Affairs
