### International Air Services Commission

#### RENEWAL DETERMINATION

**Determination:** [2006] IASC 116  
**Renewal of:** [2002] IASC 107  
**The Route:** Switzerland  
**The Applicant:** Qantas Airways Ltd  
(ACN 009 661 901) (Qantas)  
**Public Register File:** IASC/APP/200616

#### 1 The application for renewal

1.1 On 19 March 2002 the Commission issued Determination [2002] IASC 107 (the Determination) allocating seven third-country code share frequencies per week to Qantas on the Switzerland route.

1.2 Under the *International Air Services Commission Act 1992* (the Act) the Commission must start its consideration of the renewal of a determination at least 12 months before the expiry of the Determination. The Determination expires on 18 March 2007.

1.3 Qantas applied to the Commission on 26 September 2006 for a renewal of the Determination. The Commission published a notice on 3 October 2006 inviting other applications for an allocation of the capacity subject to renewal. No other applications were received.

1.4 All material supplied by the applicant is filed on the Register of Public Documents.

#### 2 Delegate's consideration

2.1 In accordance with section 27AB of the Act and regulation 3A of the *International Air Services Commission Amendment Regulations 2003 (No.1)*, the delegate of the Commission considers the Qantas application.

2.2 Under the Minister's Policy Statement (No. 5) of 19 May 2004, there is a rebuttable presumption in favour of the carrier seeking the renewal. The Commission notes that:

- Qantas has been fully utilising the relevant capacity;

- according to the Register of Available Capacity, there are 2,800 saleable seats available each way each week to and from Sydney, Melbourne, Brisbane and Perth. There is unrestricted capacity, frequency and aircraft type available to and from all other points in Australia;
- there are no other applicants seeking capacity on the route; and
- there is no evidence that Qantas has failed to service the route effectively.

2.3 In these circumstances, the delegate concludes that the renewal of Determination [2002] IASC 107 would be of benefit to the public.

2.4 The wording of the fresh determination below reflects the view of the Commission that determinations which renew original determinations should contain updated terms and conditions consistent with the Commission's current practice and current air services arrangements. Under the Act, the Commission may make changes to the terms and conditions included in the original determination where warranted by changes in circumstances since the original determination was made.

### **3 Determination for renewal of Determination [2002] IASC 107 allocating capacity on the Switzerland route to Qantas ([2006] IASC 116)**

3.1 The delegate, on behalf of the Commission, makes a determination in favour of Qantas, allocating seven third-country airline code share frequencies per week in each direction on the Switzerland route under the Australia - Switzerland air services arrangements.

3.2 The determination is for five years from 19 March 2007.

3.3 The determination is subject to the following conditions:

- Qantas is required to fully utilise the capacity;
- only Qantas is permitted to utilise the capacity;
- Qantas is not permitted to utilise the capacity to provide services jointly with another Australian carrier or any other person without the approval of the Commission;
- the capacity may be used by Qantas to provide services jointly with Finnair in accordance with:
  - the code share agreement dated 1 March 2005 and the Amendment Annex to that agreement;

- or any subsequent code share agreement between Qantas and Finnair for operations on the Australia – Switzerland route with the prior approval of the Commission;
- under any code share agreement with Finnair:
  - Qantas must price and sell its services on the route independently of Finnair;
  - Qantas must not share or pool revenues on the route with Finnair;
- to the extent that the capacity is used to provide joint services on the route, Qantas must take all reasonable steps to ensure that passengers are informed of the carrier actually operating the flight at the time of booking;
- changes in relation to the ownership and control of Qantas are permitted except to the extent that any change:
  - results in the designation of the airline as an Australian carrier under the Australia – Switzerland air services arrangements being withdrawn; or
  - has the effect that another Australian carrier, or a person (or group of persons) having substantial ownership or effective control of another Australian carrier, would take substantial ownership of Qantas or be in a position to exercise effective control of Qantas, without the prior consent of the Commission; and
- changes in relation to the management, status or location of operations and Head Office of Qantas are permitted except to the extent that any change would result in the airline ceasing to be an airline designated by the Australian Government for the purposes of the Australia – Switzerland air services arrangements.
