

[2011] IASC R02 (25 March 2011) Qantas Airways Limited (Qantas)

In relation to the conditions attached to paragraph 12.1 of Decision [2010] IASC 204, which authorises code sharing between Qantas and South African Airways (SAA) on the South Africa route, the Commission resolves to allow a reduction in the combined operated frequency from 14 to 13 services per week until 31 December 2011.

The Commission notes that SAA has provided some evidence of exceptional circumstances affecting the commercial performance of SAA's operations on the South Africa route. The Commission will assess any request for continuation of the frequency reduction beyond the end of 2011, in the Commission's review of the code share arrangements in the second half of 2011.
