- The allocation is requested for a period of five years from the date of the Determination of the Commission.
- The capacity will be fully utilised from 1 April 2011.

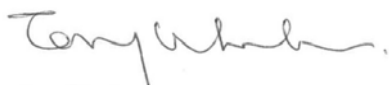

IASC Act and Policy Statement Considerations

We request that the Commission consider this application against the general criteria for assessing the benefit to the public in Paragraph 4 of the Minister's Policy Statement.

The Paragraph 4 criteria provides that the use of entitlements by an Australian carrier under a bilateral air services agreement is of benefit to the public, provided that the carrier is reasonably capable of obtaining the necessary approvals and implementing the proposal.

We would be pleased to provide any further information the Commission may require in support of this application.
