Dear Ms <sup>Marlene</sup>Tucker

**Re: Request to transfer capacity allocations to Virgin Australia International Airlines Pty Ltd**

Further to our letter dated 10 August 2018, Virgin Australia Airlines (SE Asia) Pty Ltd (VAASEA) wishes to make an amendment to our request which sought to vary the determinations supporting a number of our short-haul international routes, as part of streamlining the economic regulatory arrangements underpinning our international operations.

In conjunction with the request made by VAASEA to transfer the capacity it held to Virgin Australia International Airlines Pty Ltd (VAIA), with effect from 1 December 2018, VAASEA also requests that all existing conditions contained in each of the relevant determinations are retained as part of the variations. This includes conditions regarding each of the existing code share arrangements that are already established on the routes, as previously authorised by the Commission.

A complete list of the determinations to which this request relates is provided below:

- New Zealand route
  - [2017] IASC 113 (as varied by [2018] IASC 209) which permits code sharing with Etihad Airways, Delta Air Lines, Singapore Airlines, Alitalia, Air Canada, Hong Kong Airlines and Hainan Airlines.
- Solomon Islands route
  - [2016] IASC 114 which permits code sharing with Singapore Airlines.
- Tonga route
  - [2014] IASC 112 which permits code sharing with Singapore Airlines.
  - [2017] IASC 127 which permits code sharing with Singapore Airlines.
- Vanuatu route
  - [2017] IASC 117 which permits code sharing with Singapore Airlines.
  - [2017] IASC 121 which permits code sharing with Singapore Airlines.
